Summary

Frontend Developer with 4+ years building responsive, performance-driven websites and eCommerce storefronts. Specialized in WordPress and Shopify, with production work in React.js and Next.js. Delivered 20+ production websites across retail, legal, education, consultancy and non-profit clients.

Experience

Softles **Mar 2023 — Present**

Frontend Developer *Gurugram, Haryana · Remote*

- Build and maintain fast, high-performance websites with HTML, CSS, JavaScript, and PHP for clients across multiple industries.
- Customize WordPress themes and Shopify storefronts to match each client's brand and business requirements.
- Integrate HubSpot, LeadSquared, and payment gateways to power lead capture and online sales.
- Create responsive layouts and reusable UI components that keep projects consistent and quick to ship.

Chulbul Design **Sep 2022 — Feb 2023**

WordPress & Shopify Developer *Gurugram, Haryana · Remote*

- Built eCommerce websites on Shopify and WordPress, tailored to each client's business goals.
- Handled client requirements end to end — from theme customization and custom code to final configuration.
- Designed SEO-friendly product and landing pages that improved organic visibility and conversions.
- Fixed bugs and maintained plugins, databases, and performance for live client sites.

Projects

Brunswick Fur Food | *Shopify, Liquid, Subscriptions, HubSpot, Payment Gateway* **Live Site**

- Built a custom Shopify theme in Liquid for a premium pet-food brand, including subscription plans, configurable meal options and custom variant selectors.
- Integrated discount codes, HubSpot and secure payment gateways so campaigns and recurring orders run without manual reconciliation.

Ayla Solutions | *Next.js, Headless CMS, Tailwind CSS, Vercel* **Live Site**

- Developed a headless Next.js front end for a data analytics consultancy, with server-rendered pages and CMS-driven services and blog content.
- Tuned images, fonts and rendering for Core Web Vitals, and structured the pages so every service is indexable.

Art Tech Institute | *Next.js, Responsive UI, Course Platform, SEO* **Live Site**

- Built a Next.js course platform organised around career outcomes, covering course discovery, student results, testimonials and enquiry journeys.
- Optimised rendering and images so the site stays fast on low-end phones, with an indexable page for every course.

BNPS International | *WordPress, Elementor, LeadSquared, Email Automation* **Live Site**

- Customised a WordPress theme for an education consultancy and placed enquiry forms at each decision point on the page.
- Integrated LeadSquared CRM with automated email workflows, so every lead is captured with context and answered immediately.
